Sanjay Kumar (Full stack developer)

noida sector 63 | 9793405249 | sanjayku074@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with over 3+ years of experience in React Js, Nextjs, Node Js,Spring boot, Express Js, Mongodb, Docker, Redis, JavaScript, socket io, Rest Api plus other modern JavaScript libraries and frameworks. Worked on different types of projects including e-commerce, chat web applications, streaming platforms, and social media platforms, etc. Managed the front-end and back-end development of the website and applications created for the customers.

EDUCATION

B.tech computer science from aktu (2022-2024)

Chhatrapati Sahuji Maharaj Govenment Polytechnic Ambedkar nagar Diploma(2017 - 2020)

M G S I C Dahlaupur Ambedkat Nagar(2016-2017)

TECHNICAL SKILLS

- Node js
- Express js
- Mongodb
- CI/CD
- Nest js
- Sql
- Docker
- WebRtc
- Socket.io
- Nest js
- AWS
- Redis
- Rest api
- Git
- Java script
- Typescript

PROFESSIONAL EXPERIENCE

Metaversity Technologies   **Mar 2023 - Present**
Node js developer

Accomplishments

- Engineered a decoupled application architecture, providing flexibility and ease of integration across various components of our project.
- Ensured modular design, allowing for efficient updates and enhancements without disrupting the entire system.
- Developed a versatile decoupled application capable of integrating seamlessly across different modules within our ecosystem.

Kickr Technologies   **Jan 2022 - Feb 2023**
Full stack developer

Accomplishments:

- Strategically designing and implementing robust databases and data schemas tailored for high-volume internal web applications.
- Implemented best practices for coding standards, ensuring a scalable and maintainable codebase for long-term project sustainability.

PROJECTS

Mv games

http://15.207.226.246:8001/

Technology   ReactJs, Node Js, Express Js, Redis, Mongodb, AWS, Socket Io, CICD

Features

- **Web3/Web2 Integration**: Drove the conception and development of a groundbreaking gaming platform that seamlessly integrates Web3 and Web2 technologies. Pioneered a unique environment where users can engage in captivating games and place bets using both cryptocurrency and fiat currency,
- **Global Connectivity**: Developed and integrated a Live Chat Global feature, enabling users worldwide to engage in real-time conversations. This feature enhances the social aspect of the gaming platform, creating a vibrant and connected community.
- **Privacy-Focused Private Chat**: Designed and implemented a Private Chat feature, allowing users to engage in private conversations within the platform securely. This enhances user privacy and provides a personalized communication channel.
- **Exclusive Rewards**: Designed a rewarding system where both the referring user and the new participant receive exclusive incentives. This creates a win-win scenario, encouraging active participation and engagement within the gaming community.

Maggibook

https://maggibook.com/

Technology   React Js, Type Script, Node.js ,Express ,springBoot ,Mongodb

Features

- **Local Currency Integration**: Seamlessly integrated the Indian Rupee (INR) into our platform, allowing users to place bets with ease in their native currency.
- **Real-Time Conversion**: Implemented real-time currency conversion features, allowing users to view and place bets in INR without the hassle of manual conversions.
- **User-Friendly Interface**: Designed with a user-centric approach, the chat feature boasts an intuitive interface for seamless navigation. Accessible and easy to use, it enhances the overall user experience.
- **Diverse Game Selection**: Access a wide variety of games from third-party developers, expanding the gaming catalog to encompass genres, styles, and themes that appeal to a diverse audience.

Meme Chat

Technology Features Node.Js ,Express Js ,Mongodb,Socket io ,WebRtc ,React Native ,Digital ocean ,zegocloud

- **User Authentication**: Allow users to create accounts or log in using existing credentials. Implement secure authentication methods to protect user data.
- **Video Call**: Meme chat is a social app in which user talk video call other side and one to one and one to many

  And add the block and un block and follow and unfollow like, And add the chat part one to one and group chat

Apna Kisan

https://play.google.com/store/apps/details?id=com.blackhatcode.in.ssa_app

Technology React Native, React Js, Node Js, Express Js, Mongodb, Digital ocean

Features

- **User Authentication**: Allow users to create accounts or log in using existing credentials. Implement secure authentication methods to protect user data.
- **Product Catalog**: Display a well-organized product catalog with categories and filters. Include high-quality images, product descriptions, and pricing information.
- **Integration with WhatsApp API**: Once admin uploads product in a specific product category, product notification will send to all our users via WhatsApp.
- **Wishlist and Favorites**: Allow users to save products to a wishlist for future consideration.
- **Promotions and Bonus Points**: Run special promotions offering bonus points for specific actions, such as making a purchase during a certain timeframe.
